

LCD Repeater Panel GST852RP

Features and Benefits

1. Large LCD Display
2. Back Lit LCD displays all fire information
3. Two plug-in constructions allow easy installation.
4. Addressable intelligence enabling full monitoring and reporting to Fire Control Panel

Description

GST852RP LCD Repeater Panel is designed with a microprocessor. When one or more detectors alarm fire, the repeater panel can display the location numbers and information of the detectors and sends out audible and optical signals. Through our RS 485 communication network, it can be connected to all GST Intelligent fire alarm controllers.

Technical Specifications

- Operating voltage: 24Vdc
- Power Consumption:
Standby power: 2W
Maxi2mA
- Operating temperature: -10°C to +50°C
- Relative humidity: 95%
- Application: Indoor use
- Material and colour: ABS, Off-white
- Wiring: 2 pair polarized: 1 pair supply and 1 pair data signal
- Dimensions: 234 x 104 x 35mm

Selection of compatible Control Panels

Compatible with all GST Intelligent fire alarm panel.
